Re: GS05P06GAC3029  
Robert A. Grant Federal Building & US Courthouse  
South Bend, IN 46601

Dear Ms. Roldan:

My firm, Don Prichard, Architect was teamed with F&G Engineers, Inc. from 2004 - 2010 as Architect for the Fire Alarm & Fire Protection at the Robert A. Grant Federal Building & US Courthouse, which is listed on the National Registry for Historic Buildings.

With over 136,000 square feet, and constructed in 1936, this historic building is representative of that era, and contains marble floors, brass fixtures, ornate plaster and original millwork.

The life safety work as performed by The Beresh Group, Inc., General Contractor was throughout this entire building, and required extreme care and sensitivity to not only the building interior and finishes, but also coordination with all of the federal agencies within this magnificent structure.

As Architect, I was very pleased in the meticulous workmanship performed by The Beresh Group, Inc., and would recommend their firm for future projects, and especially those where historical preservation is of great significance.

Sincerely,

Don Prichard  
Architect
