Re: The Beresh Group, Inc.
Millender Center People Mover Renovations

Dear Mr. Joseph:

Please let this letter confirm the excellent performance and quality of work performed by The Beresh Group, Inc. for the Millender Center People Mover renovations.

Although the work was delayed until a late Fall 2010 start, the completion was still made on time and within budget prior to the Charity Preview for the North American International Auto Show, a major event for the City and the Detroit People Mover.

The Detroit People Mover links several significant edifices in downtown Detroit including the Cobo Conference Center, Joe Louis Arena, GM Renaissance Center and Millender Center. Thousands of people pass through these activity centers on a daily basis, and having the work completed at the Millender Center allowed the visitors to experience our bright, new illuminated transit station.

Please also note that this work was completed without any disruption to People Mover customers, and the Beresh Group's outstanding safety program provided an accident- and injury-free work site.

DTC has also received notice that the Construction Association of Michigan (CAM) has recognized the Millender Center Transportation Enhancement Lighting Project as one of the top twelve projects of 2010.

DTC was pleased with the work performed by The Beresh Group, Inc, and would consider the organization for future projects. Please do not hesitate to contact me should you have any questions.

Sincerely,

Barbara Hansen
General Manager
